Address	Cobnar Wood Close, Chesterfield S41 9RQ, UK
Telephone	01246 887 890 (International +44 1246 887 890)
Fax	01246 351 261 (International +44 1246 351 261)
E-mail	salez@hambletonbard.com (well, antispam you know...)
www	www.hambletonbard.com
Yahoo Messenger	Janet.Fellows_HB (sales), Carl_Giljam (technical etc)
MSN Messenger	Carl_Giljam@hotmail.com (technical queries) (no emails here)
Trade customers	Payment on 30 days (subject to status), trade discounts apply and VAT will be added to final invoice amount after discount. We do not accept cheques bouncing or cheques being stopped. A fee of £25 for our handling will be charged if this happens, your credit status will be reviewed and very likely changed.
Minimum Order	We have no minimum order size but freight cost may be added to small orders (see below).
Freight Cost	<p>Freight cost will be added to your order, please enquire about amount. A fuel surcharge of £4 ex VAT will be added to all orders.</p> <p>Mainland UK is FOC for orders above £300 ex VAT and discounts and not counting CO2 cylinders (\$20, \$30). Fuel surcharge added.</p> <p>Freight charged at cost (for orders below £300). Orders containing mainly (or large amounts of) bulk items or bottles do not qualify for free freight, a negotiable cost will always be charged.</p> <p>Fixed £10 delivery cost for all orders below 25 kgs. Applies to mainland UK. For small items in post, we charge a standard rate of £2.50. Freight charges are net, no discount applies.</p>
Pack Sizes	Where a pack size is shown, please order in multiples of the pack size. So most beer kits are ordered 6, 12, 18 etc and you can not order numbers in between. If we ever make an exception and split a pack, we will take NO RESPONSIBILITY for damages. Prices are always stated per single stock item even if there is a pack size.
Returns & Complaints	<p>Goods, whether faulty or not, can only be returned if you have obtained a Returns Note from our office first.</p> <p>Hambleton Bard drivers are only authorised to collect returns against a preprinted Returns Note. You must provide a copy of the Returns Note together with the goods to be returned.</p> <p>Trade customers: Please do not replace a faulty item with a new for a customer without our approval as we may choose to repair the item, or replace parts of it.</p> <p>We do not normally issue money refunds for faulty goods, instead we normally replace/repair. We may issue a credit note, but this is entirely at our discretion.</p> <p>Any shortages or damages on a delivery must be reported to us within 3 days after delivery. After this, we may not accept liability.</p>
Ownership of goods	Notwithstanding delivery and the passing of risk, property in and title to the goods shall remain with Hambleton Bard Ltd until we have received payment of the full price of (a) all goods and/or services the subject of the invoice and (b) all other goods and/or services supplied by us to the buyer under any contract whatsoever. Payment of the full price shall include, without limitation, the amount of any interest or other sum payable under the terms of this and all other contracts between Hambleton Bard and buyer

Cantina

- ▶ **Makes wine in only 5 days!**
- ▶ **No sugar required - just add water!**
- ▶ **Makes 21 litres of wine!**

Start it on Monday - drink it on Friday. Cantina is the ultimate combination of speed and quality in home wine making kits. Based on our new highly specialised yeast strains and nutrients we are here able to retain the grape qualities through the superfast fermentation. Makes 21 litres and no sugar needs to be added.

You can now buy loose taps with screw-on fit to the inner bag. Use this to serve wine straight from box!

Bulldog Brews 100g hop pellets are packed in a stand-up pouch for good shop display. It has a ziplock for resealing once it has been cut open and we pack these with light vacuum plus nitrogen flushing for a very good shelf life.

01246 887890
www.hambletonbard.com

Alpha acid content varies for each batch. We mark each bag with crop year and exact alpha acid content. The alpha acid values above is a guideline only.

Our range of hop pellets will become gradually available during April 2014

For detailed descriptions of our hop varieties, please visit www.bulldogbrews.co.uk.

alcotec

- ▶ Extreme Alcohol Technology
- ▶ For home distillation (where legal) or..
- ▶ High alcohol fermentations

The Alcotec product range was born out of our experience from the Scandinavian Turbo Yeast market and its demand for faster and more extreme fermentation products. Alcotec is today the worlds leading brand for home distillation products (where legal) and high alcohol kits. Read more here: www.turbo-yeast.biz.

www.hambletonbard.com 01246 887890

Alcotec 24 - The 24 hour Turbo Yeast

Alcotec 24 is the most extreme yeast you have ever seen. It will ferment 6 kgs of sugar in 25 litres of water, up to 14% in 24 hours! This is not a fermentation, it is an explosion.

Code	Item	Pack Size	Single Price
31024	Alcotec 24 Hour Turbo	50	3.95 H
<i>Pack size for guidance only, you can order any number of these</i>			

Alcotec 48 - The dual Turbo Yeast

Alcotec 48 is a "dual" turbo yeast. It can ferment 6 kgs/25 litres up to 14% in 48 hours - or 8 kgs/25 litres up to 20% in 5 days. You simply choose how much sugar to add.

It is temperature tolerant so it's perfect for hot summer temperatures.

Code	Item	Pack Size	Single Price
31048	Alcotec 48 Dual Turbo	40	3.35 H
<i>Pack size for guidance only, you can order any number of these</i>			

Alcotec VodkaStar - Extra Pure Wash

The VodkaStar is our newest addition to the Alcotec range. It produces the "purest" spirit of all our turbo's - at the expense of speed. It will produce 14% alcohol by volume in 5-6 days.

VodkaStar is also extremely temperature tolerant (even more than the AT48). This is the yeast to use for the really high temperatures. With its very pure fermentation, it is also perfect to use in combination with simple pot stills (where legal).

Code	Item	Pack Size	Single Price
31013	Alcotec VodkaStar Turbo	50	2.79 H
<i>Pack size for guidance only, you can order any number of these</i>			

Alcotec 8

Alcotec 8, was the first single sachet high alcohol turbo when it was launched in the mid 1990's. It will ferment out 8 kgs of sugar (that's the 8 in the name) in 25 litres of water in 7-10 days. Final alcohol is near 20% abv.

There are certain temperature restrictions when using AT8. A more modern version with larger temperature tolerance is the AT48 (see above).

Code	Item	Pack Size	Single Price
31100	Alcotec 8kg Turbo UF	50	3.95 H
<i>Pack size for guidance only, you can order any number of these</i>			

Alcotec 23% Turbo - maximum alcohol!

The new Alcotec 23% Turbo Yeast will produce 23% alcohol, using 10.5 kgs of brewing sugar (dextrose monohydrate). You can NOT use normal sugar. New type of recipe with added carbon and minerals. Use together with 30224 Alcotec TurboKlar.

Code	Item	Single Price
31023	Alcotec 23% Turbo Yeast	5.50

Alcotec Triple Still - maximum purity!

Alcotec Triple Still takes purity in fermentation to its extreme. Based on similar techniques as the 23% but used for purity instead. Makes 14% alcohol in 7 days from 6 kgs of (normal) sugar. Use together with 30224 Alcotec TurboKlar.

Code	Item	Single Price
31030	Alcotec Triple Still Turbo Yeast	4.95

Alcotec 24 TurboKlar - 24 Hour Finings

A new addition to the Alcotec range that will clear wine, beer or turbo fermentations in only 24 hours! Unbeatable performance and unbeatable price.

Code	Item	Pack Size	Single Price
30224	Alcotec 24 TurboKlar	200	1.49 H
<i>Pack size for guidance only, you can order any number of these</i>			

alcotec

Single Strain Whisky Yeast with amyloglucosidase

Code	Item	Single Price
31015	Alcotec Single Strain Whisky Yeast	2.89 H

Alcotec Spirit & Vodka Kits - no need for distilling!

alcotec

- ▶ Extreme alcohol - over 20% strength!
- ▶ Makes pure base spirit!

Spirit Base Kits ▶ Use with any essence of your choice!

Code	Item	Single Price
33100	Alcotec Spirit Kit, 5 litres	9.95 H
33815	Alcotec Vodka Kit, 25 litres	19.95 H

Alcotec Re-Start Yeast - use for stuck fermentations

Alcotec Re-Start yeast is alcohol tolerant up to 5-7% which makes it the perfect yeast to use for re-starting a stuck fermentation as long as no more than 7% alcohol present.

Code	Item	Single Price
30012	Alcotec Re-Start yeast for stuck fermentations	1.59 H

alcotec **Activated Carbon**

The "Karbon's" are two new activated carbons with extreme absorption of impurities in liquids.

Pure Karbon has a granular size of 0.4-0.85mm and the standard Karbon has 0.4-1.4mm.

Code	Item	Single RRP

Top-Up Extracts

The Top-Up liqueur extract is new to the UK market. It is a pre-mix of liqueur essence and sugar (a special glucose mix for best body) filled into a 700 ml spirit bottle.

The extract takes up some 150-300 ml depending on type and to make your final Amaretto - just open bottle and top up with spirit (ideally 40% but you can get away with 20% from a high alcohol kit).

Convenient - no sugar mixing, high quality through the special liqueur body mix included and the bottle problem solved!

The new types are expected in stock March/April 2012

SmartStill - Table top distiller

Stainless steel countertop 4 litre water distiller. It comes complete with an activated carbon holder (nozzle) and 2 high absorption carbon sachets, a cleaner sachet and a full instruction. A 4 litre jug can be purchased separately, it is not included.

Although SmartStill can safely distill both water and alcohol - you must instruct your customers not to use it for alcohol distilling in the UK (or elsewhere) without the necessary licenses, permits etc to do so.

Note: Distillation of water takes considerably longer time than alcohol.

SmartStill 4L water purifier
